(d) EBITDA, as defined in Kroger's credit agreements, represents earnings before interest, taxes, depreciation, amortization, LIFO, and one-time items.

(e) Net working capital, as defined by The Kroger Co., is calculated as current operating assets less current operating liabilities. The components of this calculation are detailed following the Consolidated Balance Sheet.

(f) Net total debt, as defined by The Kroger Co., is calculated as the amount of long-term debt, including capital leases, net of Kroger's investment in debt securities issued by lenders of certain of Kroger's structured financings and net of prefunded employee benefits.

(g) ERONOA, as defined by The Kroger Co., represents the EBITDA return on net operating assets and is calculated as rolling four quarters EBITDA before rent expense divided by the sum of total assets less goodwill less accounts payable plus 8 times rolling four quarters rent expense.
