

VENDOR STANDARD ROUTING INSTRUCTIONS

(Parcel, Air, LTL & TL Routings)

The Kroger Co. has negotiated preferred pricing with select carriers for corporate wide application to include all marketing area distribution centers, manufacturing plants, regional freight management centers, and retail stores for collect shipments to our facilities. We expect full compliance with these instructions in order to maintain the lowest freight costs. **Please note it is at the discretion of the Vendor to choose the carrier for a Delivered shipment.** However, the following carriers are contracted by Kroger for use on Collect shipments to our facilities.

*****All costs associated with Delivered Shipments are the responsibility of the shipping Vendor. The Kroger Co. will not incur the costs for LTL carriers who charge accessorials such as, but not limited to, Sort & Segregate, Detention, or Redelivery on Delivered Shipments. Please note accordingly on your BOL when shipping to a Kroger facility.*****

These instructions do not apply to truckload shipments, which generally are defined as shipments weighing over 10,000 lbs or 750 cubic feet. Please refer truckload routing inquiries to the Kroger Transportation Centers or to the Kroger Manufacturing Plant. Contact information is listed below under "Truckload".
